### **3.6. Principle of the Emirates Fly Better Game**

**3.6.1.** The Emirates Fly Better Game will run from May 19, 2025 at 9 a.m. (UTC +1) to June 8, 2025 until the end of the Men's Singles Final of the Tournament (date and French time of connection, as recorded by the computer system as proof).

**3.6.2.** During each session of the Game, the Participant will control a fictitious aircraft responsible for collecting as many objects as possible to earn points, while avoiding obstacles. If a Participant obtains a total of two hundred and sixty (260) points or more, or if he/she manages not to touch an obstacle within a maximum time limit of one minute (1 min), then he/she will be able to access the higher level. The higher level is defined by the same quantity of obstacles and objects to collect, but with a higher screen scrolling speed. There is no maximum time limit for this higher level.

As soon as the Participant touches an obstacle, the session of the Game ends before the end of the allotted time and the Participant obtains a score calculated according to the number of objects collected: the more objects the Participant collects, the higher his score will be. .

Once the session of the Game is over, a chatbot appears to request several items of information from the Participant in order to register his/her participation.

**3.6.3.** The Participant can play the Game as many times as he/she wishes. He/she is not limited in the number of participations. His/her highest score is saved and deletes the previous score, so that a Participant cannot appear several times in the ranking of best scores (hereinafter, the “**General Ranking of the Emirates Fly Better**”).

**3.6.4.** At the end of the Game, the General Ranking of the Emirates Fly Better will be established and consist of the five (5) Participants having obtained the highest scores.

### **3.7. Principle of the Green Teams Quiz Game**

**3.7.1.** The Green Teams Quiz Game will take place from May 19, 2025 at 10 a.m. (UTC +1) until June 8, 2025, more precisely until the end of the Men's single final of the Tournament (date and French time of connection, such as 'recorded by the computer system as proof).

**3.7.2.** Every day, Participants will have the opportunity to answer a different quiz consisting of questions on the theme of sustainable development, within a time limit of ten (10) seconds per question. For each question, there are four (4) answer choices but only one (1) correct answer.

**3.7.3.** The Participant is able to identify his or her right and wrong answers during the Game through two graphic elements. A green screen means that the Participant has answered the question correctly. A red screen means the user did not answer the question correctly.

**3.7.4.** The number of correct answers given by the Participants has no influence on the designation of the Winners. The aim is to raise Participants' awareness of sustainable development. Consequently, at the end of the Contest, a draw will be made from among all the Participants to designate five (5) Winners.

### **3.8 RG Explorer Game Principle**

The RG Explorer Game will take place from May 24, 2025, at 10:00 a.m. (UTC +1) until June 8, 2025, specifically until the end of the Tournament (French login date and time, as recorded by the computer system, shall prevail).

Participants will be able to click on various booths highlighted on a virtual map of the Roland-Garros Stadium. By clicking on a booth, a question will be presented to the Participants.

Each Participant may answer a multiple-choice question with three (3) possible answers.

After submitting their answer, the Participant will be informed whether their answer was correct or not. If the Participant answered correctly, a clue will be provided.

This clue will lead the Participants to a hidden QR Code somewhere within the Roland-Garros Stadium. To try to win a prize, the Participant must find this QR Code in the Stadium and scan it using their mobile phone. Once scanned, the QR Code will redirect them to a digital scratch card giving them the chance to win a prize. After scratching, the ticket will indicate whether or not the Participant has won.

The scratch cards are based on a system of randomly predetermined winning moments.

A software program operated by the FFT's subcontractor is configured in advance by the FFT prior to the launch of the Game to assign prizes at specific winning times: these are the winning moments.

To win, a Participant must be the first to scratch a ticket after the exact time at which the winning moment was configured in the software.

When a Participant scratches a ticket first after such a predetermined winning moment, they win the prize associated with that winning moment.

There are as many winning moments as there are prizes, as described in Article 4.14 below. A Participant may win only once.
